

WIRELESS N POCKET ROUTER/ACCESS POINT

GO WIRELESS ANYWHERE

Perfect Wi-Fi travel companion for business or personal use

HIGH-SPEED WIRELESS N

Create an 802.11n Wi-Fi network or add wireless to a network-ready device

CONNECT SECURELY, EASILY

Simple Wi-Fi connection with Push Button Security

ONE DEVICE, THREE WIRELESS FUNCTIONS

The D-Link® Wireless N Pocket Router/Access Point (DAP-1350) features multi-mode functionality you can utilize as a wireless router to create an 11n Wi-Fi network or easily use as an access point to add Wi-Fi to an existing wired network to provide a wireless connection anywhere. The DAP-1350 also functions as a wireless client to easily connect an Ethernet-ready device (such as a desktop PC or game console) to a Wi-Fi network for increased flexibility and added convenience for all your wireless networking needs.

THE WIRELESS ROUTER THAT TRAVELS

Compact and lightweight, the DAP-1350 is small enough to carry with you while traveling and easily sets up to create a powerful 11n Wi-Fi network. Use the DAP-1350 to easily share an Internet connection or to simply connect to an existing wired network in a conference or hotel room, or anywhere a Wi-Fi network is needed. Equipped with a travel case, the compact and lightweight DAP-1350 is the perfect companion for all your business and personal travels.

ADVANCED WIRELESS SECURITY

The DAP-1350 supports the latest wireless security features to help prevent unauthorized access, be it from over a wireless network or the Internet. Support for WPA™ and WPA2™ wireless encryption ensures that you can keep your network traffic safe and secure.

Delivering powerful 11n performance with multi-mode functionality and increased mobility, the DAP-1350 is an ideal solution for providing convenient wireless connectivity anywhere Wi-Fi access is needed.

DAP-1350

WHAT THIS PRODUCT DOES

Use the Wireless N Pocket Router/Access Point (DAP-1350) to create a Wi-Fi network anywhere wireless is needed while traveling. Simply add wireless to an existing wired network (such as hotel and conference rooms) or connect an Ethernet-ready device (such as a desktop PC or a game console) to a Wi-Fi network.

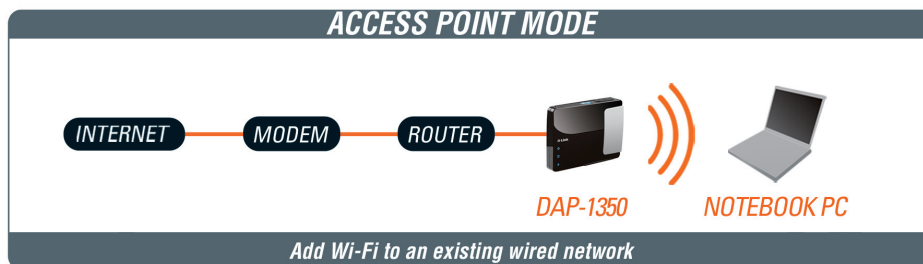

WHY WIRELESS N IS BETTER

This Wireless N Pocket Router/Access Point uses 802.11n technology with multiple intelligent antennas to maximize the speed and range of your wireless signal to significantly outperform 802.11g devices. The antennas bounce multiple wireless signals off walls and ceilings to work around obstructions and help eliminate dead spots.

SHARE YOUR MOBILE INTERNET

Connect a D-Link 3G USB adapter to the Wireless N Pocket Router/Access Point to share your mobile Internet connection. Now you can provide wireless Internet connectivity for a room of computers instantly, making the Wireless N Pocket Router/Access Point perfect for conferences and meetings.

THREE NETWORK SETUPS IN ONE DEVICE

DAP-1350

KEY FEATURES

- Multi-mode functionality with wireless router, access point, and wireless client modes
- Create a powerful Wi-Fi network with 802.11n wireless technology
- Backward compatible with 802.11g devices
- Works with D-Link 3G USB adapters so you can share a mobile Internet connection
- SharePort™ Technology for sharing USB printers and storage over your network²
- Supports Power over USB³ for added convenience
- Quickly and securely connect computers and devices to your wireless network with the Wi-Fi Protected Setup™ (WPS) Push Button
- Secure your wireless network using advanced WPA™ or WPA2™ encryption

TECHNICAL SPECIFICATIONS

STANDARDS

- IEEE 802.11b
- IEEE 802.11g
- IEEE 802.11n 2.4GHz
- IEEE 802.3u

INTERFACE TYPE

- Mode selection switch (Router / Access Point / Client)
- 10/100 WAN/LAN Port
- USB Port for 3G USB adapters¹ and SharePort™²
- WPS button
- Reset button

OPERATION FREQUENCIES

- 2.4 to 2.4835 GHz

OPERATION CHANNELS

- FCC: 11
- ETSI: 13

OPERATION MODES

- Router Mode
- Access Point Mode
- Wireless Client Mode

ANTENNA TYPE

- 2 Integrated Antennas

SECURITY

- 64/128-bit WEP
- Wi-Fi Protected Access (WPA-PSK, WPA2-PSK)[®]
- Wi-Fi Protected Setup™ (WPS PIN/PBC)
- MAC Address Filtering
- Disable SSID Broadcast function

LEDs

- Power
- LAN
- WLAN

CERTIFICATIONS

- FCC Class B
- CE
- C-Tick
- Wi-Fi[®], WPS/Wi-Fi Protected Setup
- IC

QUALITY OF SERVICE

- Wi-Fi Multimedia (WMM)

DIMENSIONS

- 91mm x 65mm x 21.6mm
(3.58in x 2.56in x 0.85in)

WEIGHT

- 64 grams

STORAGE TEMPERATURE

- 10° to 70° C (14° to 158° F)

STORAGE HUMIDITY

- 5% to 95% non-condensing

¹ Compatible with select D-Link 3G USB adapters.

² USB SharePort only supported in Router Mode.

³ Power over USB requires direct connection to a PC's USB port with a minimum output of 500mA. This feature is only supported in Wireless Client Mode.
