How to upgrade your firewall's firmware

Consult our ftp site (<u>ftp.dlinktech.co.za</u>) for the latest available firmware.

Log into your firewall.

To log in, open your browser and type the IP address (default-192.168.1.1) of the firewall in the address bar and press "Enter".

This will take you to the Login screen. Use "admin" as username and "admin" as password.

lease ente	r your username and password.
Usemame:	admin 🔘
Password:	
	Login

Now you are logged into your firewall.

Upgrading the firmware.

Click on Maintenance and then upgrade.
