# **NETDEFEND**

# How to Setup URL Filter for DFL-M510

#### **Environment:**

Internet-----Firewall-----DFL-M510-----Client PC

DFL-M510 HOW TO

#### **Objective:**

Block playboy.com by DFL-M510

### Setup1. Hosts/Group->Setup Hosts

Make sure DFL-M510 already learned the Client PCs that you would like to manage

s Tab	le ——						
					2		
No.	State	Host/IP Address	MAC	VLAN	Name	MAC-IP Bind	MAC-Lock
1		IBM-R51 / 192.168.1.19	00-0D-60-75-46-39	0			
2		SQUALL-DESKTOP / 220.10	00-11-2F-52-0C-D1	0	Ċ.	9	

### Setup2. Hosts/Group->Setup Groups

Add a new group called "block" and add the host into it.

Default			-	1	
	Add	Group Name	block		
	Delete	Quota		0 C MB	
	Up	Session		0 Session	s
	Down	Available Host	3		Hosts in Selected Group
		8 SQUALL-	- DESKTOP(220.10.30.2		BM-R51(192.168.1.19)
				, A	
				>>	1
				<	
				-	-

### Setup3. Policy ->Keyword Filter

Add a URL keyword "playboy.com" in the URL keyword1

No.	Keyword Name	Keyword Content
1	Web Page Keyword 1	1
2	Web Page Keyword 2	
3	Web Page Keyword 3	
4	URL Keyword 1	playboy.com
5	URL Keyword 2	
6	URL Keyword 3	
7	MSN Keyword 1	
8	MSN Keyword 2	
9	MSN Keyword 3	

### Setup4. Policy->Message Setting

Add a web message to user.

Web Message to User ----

No.	Message Description	Message Text		
1	Web site against the security policy	Your Application Communication has been blocked by a Policy		
2	test	Block by DFL-M510		

## Setup5. Policy->Policy Setting->Template Setting

DFL-M510 HOW TO

Create a new template and setup the URL Keyword1 with Block action and choose Web Message you just created in the **Setup4**.

[]] Message Exchange (IM)	- Pass
	Alert by Email
🗄 🖳 📶 Porn	🔲 Win Popup Message
🗄 🕗 🥁 Web Mail	Communication blocked by s 💌
🗄 🗹 🙍 Web Application	
	vrd 1
🖸 Web Page Keywo	rd 2
Meb Page Keywo	rd3
URL Keyword 1	Schedule Always 💌
URL Keyword 2	
Unload	
Web Post	-Kerword Content
Download	noyres a content
Java Applet	
L 🖸 Cookie	playboy.com
- 🕗 File Transfer	
-1 Streaming Media	

## Setup6. Policy->Policy Setting->Assign Policy

Assign the template to the group that you just created in Setup2.

Template Setting	Assign Policy	Policy Viewer		
T14				Host/Group
Availab	ole Templates		Policy for the template	
Wizard	d_Template		⊡Web Control	IBM-R51(192.168.1.1)
Bypas	s All		≟ 👩 Web Application	
Block F	P2P		🦾 URL Keyword 1 🔇 🦺	
Block I	M+P2P			
Block /	All			
block_	imap			
block_	рорЗ			
block_	smtp			
blockB	т			
block_	url_keyword			

Now use IE or Firefox try to browse playboy.com and you will find this request will be blocked by DFL-M510.
