

DGE-660TD Windows Vista Installation Guide using driver Version 4.0

1. Extract the drivers
2. Run the 'autorun.exe' file located in the main directory of the drivers
3. Click 'Install Drivers'
4. A dialog box 'Windows Vista XXbit' will appear. (XXbit being either 32Bit or 64bit)
5. Click OK
6. A dialog box 'Finished' should appear – Click OK
7. Insert the DGE-660TD into the PCMCIA slot
8. Windows will detect the drivers automatically and finish the installation.
