Print server settings for DIR-825 Blue interface.

Connect the printer to the USB port of the router and enable the print server in the router settings.

Configuration	Print Server	
Enable print server		
	APPLY	

Step 1 Click Start-> Control Panel, and select Devices and Printers.

Step 2 Click Add a printer.

Step 3 Select Add a local printer.

Step 4 Select Create a new port, and the type of port is Standard TCP/IP Port.

Choose a printer port		
A printer port is a type of con	nection that allows your computer to exchan	ge information with a printer
Use an existing port:	LPT1: (Printer Port)	
Create a new port:		
Type of port:	Standard TCP/IP Port	

Step 5 Input the **IP address** of the router (Default 192.168.0.1) and click **Next**. The windows will detect the TCP/IP Port. Please wait for the next page.
