

### DSL-G225 3G Compatibility List

If your 3G dongle isn't on the compatibility list we can't guarantee that it will work on the DSL-G225.

3G dongles that are on this list might have been upgraded (by the manufacturer) to use Hi-Link technology, we can't guarantee that this will work with our DSL-G225.

Limited LTE dongles are compatible with the DSL-G225.
