- Stream music to your audio system
- Stream your mobile device<sup>1</sup> and audio to your TV

### Connectivity

- HDMI out
- Micro-USB port for power
- 802.11 a/b/g/n wireless

### Easy To Use

- Connects directly to your TV
- Powered by any USB port
- Stream media from your mobile devices using any DLNA-compatible app
- Configurable through your TV remote control via web UI

### Standards

- DLNA support
- Miracast support

Take your media to the big screen with the DSM-260 TV MirrorStreamer HD. Just plug one into your TV, and you can stream your smartphone's media directly to your TV for instant playback. Sit back and view photos and videos taken with your smartphone on your TV, making it easy to share them with friends and family. Listen to your music with your audio system instead of through your smartphone's speakers. You can even mirror your mobile device<sup>1</sup> display to your TV, making it perfect for content sharing or just web browsing.

## Free Your Media from Your Mobile Devices

The TV MirrorStreamer HD lets you get more out of the media stored on your smartphone, tablet, or PC by giving you the ability to play it on your TV and audio system. There's no need to tether your laptop to your TV with a cable or transfer files off of your smartphone; you can just stream it wirelessly for instant playback, and you can control it all from the comfort of your couch. The DSM-260 gives you the freedom to enjoy your media the way you want.

## Your Mobile Device on Your TV, Wirelessly

With the DSM-260, you can do anything you do on your mobile device on your TV by streaming your mobile device<sup>1</sup> display and audio to your TV. Watch movies, work on documents, or play games, all on the big screen. Also, with its easy setup and compact size, the DSM-260 is perfect for giving presentations at work or on the road.
