FAQ

MY PHONE SAYS MOBILE NETWORK NOT AVAILABLE WHEN DIALLING

1. If this is a new installation, your SIM card may not be active. This could take between 24 - 48 Hrs.
2. Or there is no mobile service (signal) / coverage in your area.

Check that your SIM Card has been inserted correctly (as indicated on page 1 of this user guide).

If problem persists please phone Telkom on 081 180 to verify that your SIM card is active and that your area has coverage.

MAKING AND ENDING A CALL

1. On the home screen, enter the number you want to dial and press the green Dial / Answer key.
2. With the handset on hook the hands free call (Loud speaker) will be initiated.
3. Pick up the handset receiver to switch over to handset calling.
4. During an active call, press the large speaker icon to enable hands free call.
5. To end an active call, press the red End / Power key or hang up.
