# D-Link®

DWR-910M
## 4G LTE Wi-Fi MODEM/ROUTER

QUICK
INSTALLATION
GUIDE
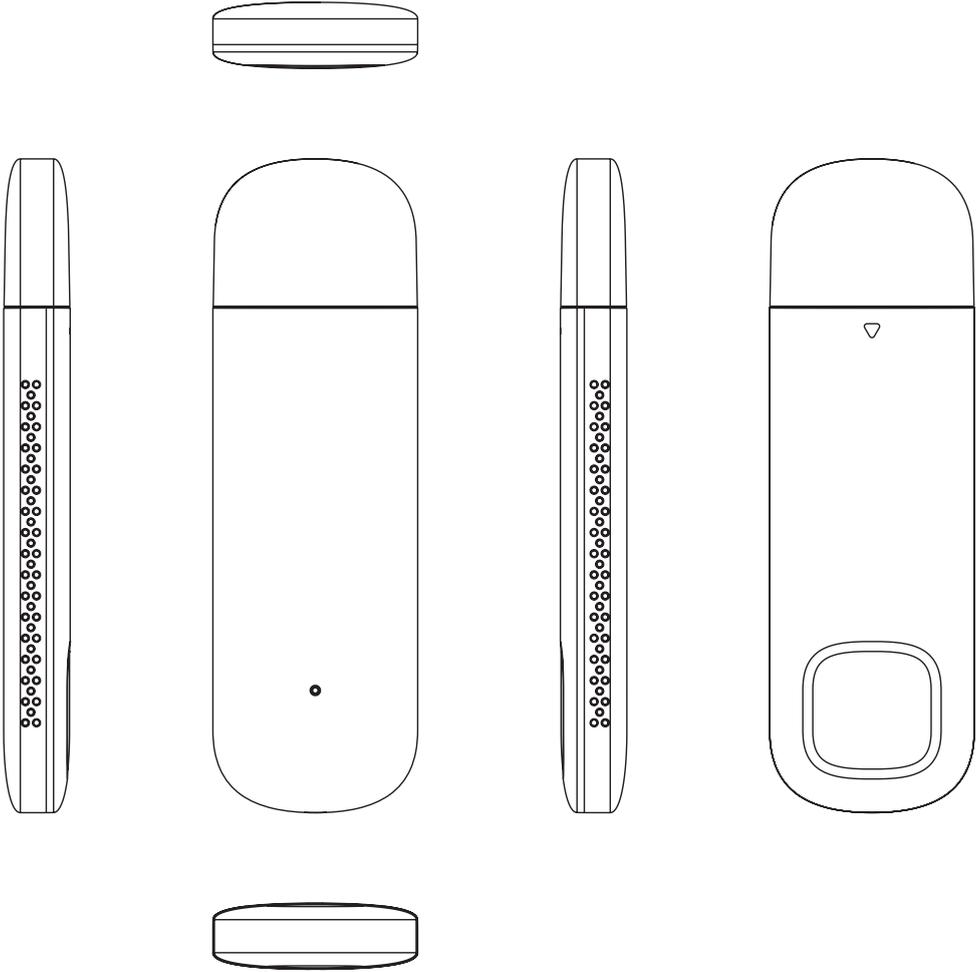

Thank you for purchasing our Mi-Fi device. Please follow the instructions below to improve your experience with our products.

Note: the products or services of suppliers or carriers are subject to change without prior notice.

About MiFi
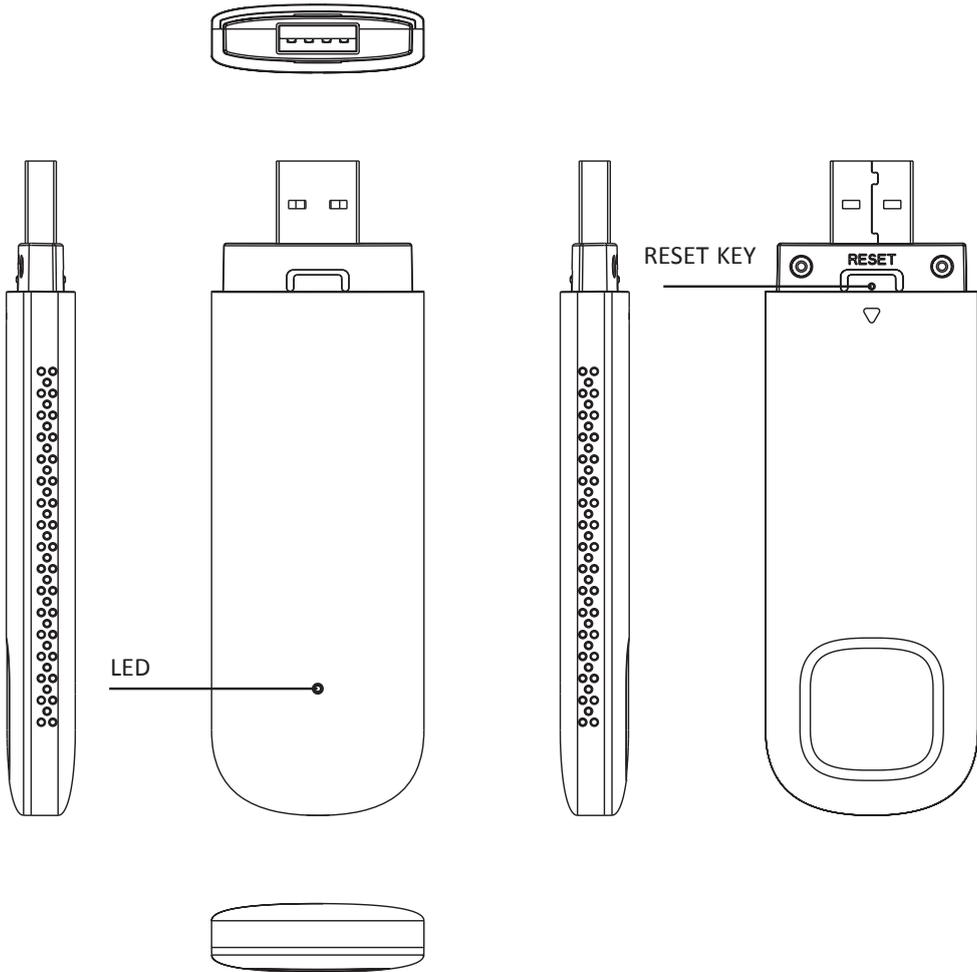

Reset key: press the reset hole with a pen tip or needle for 3-5 seconds to restore the factory settings.

Indicator light:
1. When the indicator light is red flashing, it indicates that MiFi is starting up;
2. When the indicator light is flashing green, it indicates that MiFi is identifying the card;
3. When the indicator light is always on, it indicates that MiFi has been injected into the network and can be used normally;
4.When the indicator light is blue and always on, it indicates that there is a device connected to MiFi;
5. When the indicator light is white, it indicates that MiFi is upgrading the system;
6. When the indicator light is red, it indicates that MiFi can't identify the card (for example: the SIM card used is in arrears or not inserted into the card, etc.).

Install MiFi

1. Slide in the direction indicated by the arrow and open the rear cover;

2. Put the SIM card into the card slot;
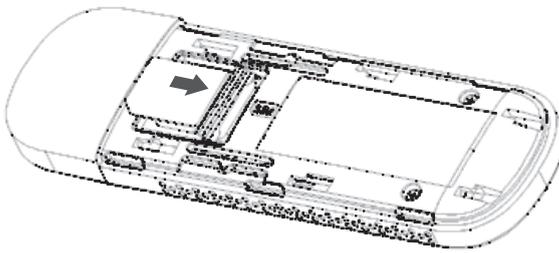

3. Close the rear cover again.
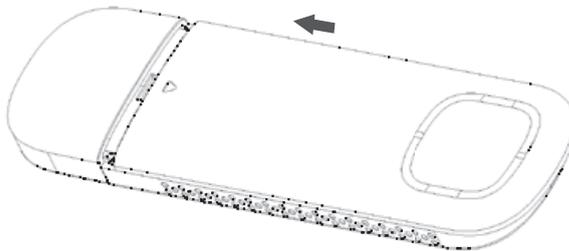

4. Power on your MiFi (such as plug-in computer, power bank, USB charger, etc.).

Connect your MiFi

1. Connect your terminal (laptop, smartphone, etc.) to MiFi;
2. Open the browser with the terminal connected to MiFi, log in to the website 192.168.0.1, enter the account "admin" and the password "admin";
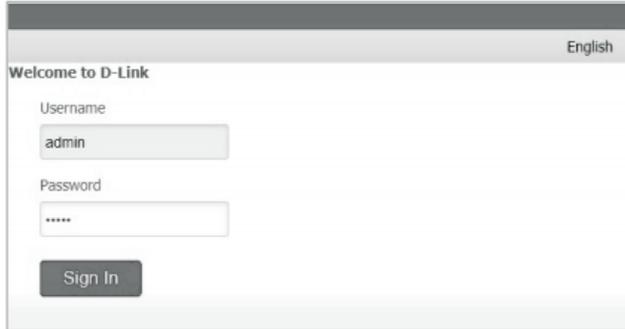

3. Check whether the WiFi name, MAC address and other information of the device are correct on the home page;
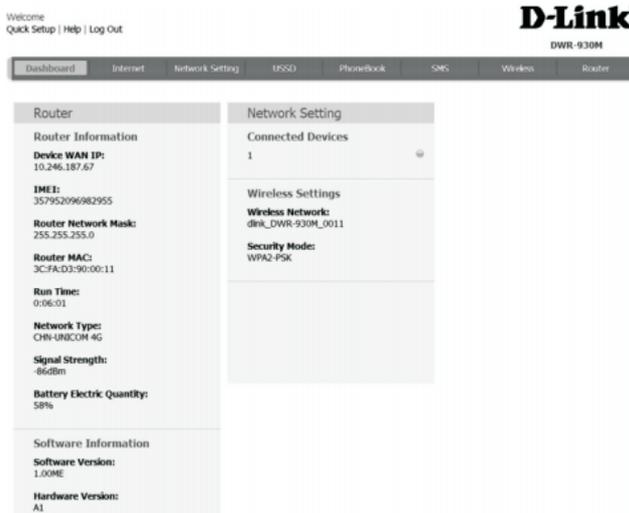

4. You can click the wireless interface to modify the WiFi account and password, modify the MiFi name in "SSID", and change the password in "password";
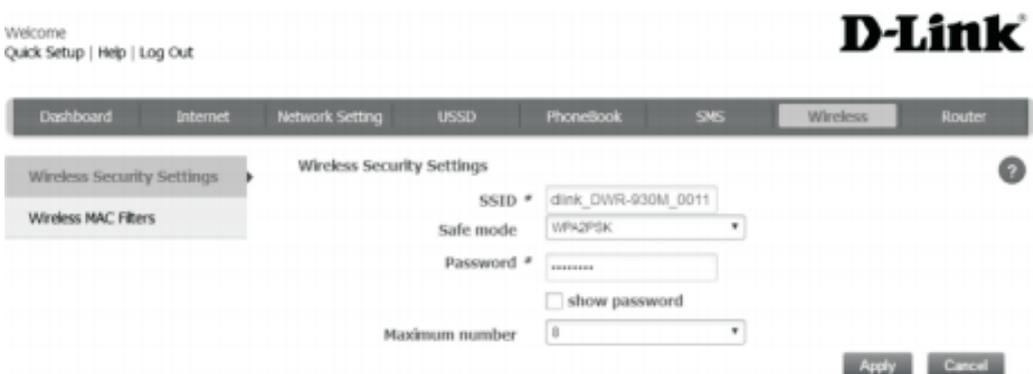

5. Click "apply" to save the changes.
