

DWR-957X

Setup Guide

Telkom

Follow the below steps and we will automatically connect you to the internet. Or call 10210 for consumer support, and 10217 or 10214 for business support, 7am to 9pm.

If you have a Fibre service

01

A. Connect the yellow Ethernet cable supplied with your router to the blue WAN port on the back of your router.

B. Connect the other end of the Ethernet cable into a LAN port on the Fibre (ONT) box.

If you have a LTE service

01

A. Flip the router upside down and open the flap at the bottom.

B. Press down and slide the SIM card holder to the right, then flip open the tray.

C. Slide the SIM card into the open tray with the gold contact points facing up.

D. Close the tray, press down and slide the SIM card holder to the left to lock it into place. Then restore the flap at the back of the router.

02

A. Connect the power connector of the power supply to the power socket at the back of the router.

B. Plug the power supply into the wall outlet and switch the wall outlet on.

C. Press the power button on the back of the router and allow roughly 1 min for the router to fully boot up.

FOR FIBRE: WAN light should be blue

FOR LTE: Mobile connection light should be orange, green or blue

D. Once hardware setup is complete, if you still have "no internet" access after 5 min, Please phone 10210 for assistance.

Package Content

A
