# D-Link® *Setup Guides*

[G2562DX Basic Wizard Setup for DHCP Fibre]

The below steps will guide you to Manually configure a PPPoE Fibre account on the router. (Please ensure you are connected to the router either on Wi-Fi or Ethernet cable)

Before you start: [size:12]

1) Login to the device WEB GUI using 10.0.0.2 and Use Username: admin Password: admin/admin1.

2) The Quick Setup Wizard will guide you step by step to configure the router for the first-time setup. Select WAN Access Type as "Dynamic IP (DHCP)"- Click Test - Enable VLAN (Only applicable if using VLAN Configuration.)

3) Enter your Telkom VPN lite, Username and Password below if Applicable.

4) Configure the LAN setup of the device. (Here you can change the Device IP address)

* LAN IP Address:	10.0.0.2
* LAN Subnet Mask:	255.255.255.0
DHCP Client Range:	10.0.0.3 - 10.0.0.254

Prev   Next

5) Configure an admin Password (Example "Admin@123" :
(Password must contain, Capitals/Numeric/Special Characters).

New Password:	Admin@123
* Confirmed Password:	••••••••••

Prev   Skip   Next

6) Configure your own unique Wireless Name (SSID) and Wireless Password below:
(Please note the SSID's cannot be the same, however the Passwords may remain the same).

2.4GHz:

Enable Wireless LAN Interface: ☑

SSID:	Example-2.4Ghz
Password:	StrongPassword@123

5GHz:

Enable Wireless LAN Interface: ☑

SSID:	Example-5.8Ghz
Password:	StrongPassword@123

Prev   Finish

Once done → Click Finish to finalize and complete the setup process.
