# D-Link® Setup Guides

[G2562DX How to Configure as Access Point]

The below steps will guide you to Configure as Access Point on the router.
(Please ensure you are connected to the router either on Wi-Fi or Ethernet cable)

1) Login to the device WEB GUI using 10.0.0.2 and Use Username: admin Password: admin/admin1.

2) Ensure the Wi-Fi names are different to that of the main internet router → Go to Wireless → Basic → SSID and change it here for both 2.4GHz & 5GHz.
   - The Passwords can remain the same.
   Once done click Apply & Save.

3) Go to Basic Setup → WAN →IPv4 → Untick "Enable" to disable the DHCP server → Click Modify.

4) Connect an Ethernet LAN Cable from any of the LAN ports (1-4) to any of the LAN ports (1-4) of the main Router.

Note: If you still do not get any Internet then please reboot both devices and wait several minutes.

End
